Ditto on all counts. Your guys did a good job on this topic. (We can solve a lot of problems by scratching our heads and thinking of new ways to approach them. Good work.) rh

Bob: Thanks for your cooperation. I feel things came together rather well. I had no negative comments as yet, but did get some favorable response. I think it will work out well.

Bill, Bob,
 Let's go with Dean's (and Bob's) recommendation. John

Examples are below (showing current and under new proposal)

2001	10-13	10-6
2002	10-12	10-5
2003	10-11	10-11
2004	10-9	10-9

Net/net.....sometimes its earlier than under current, sometimes its the same date, sometimes its later....but its NEVER the same date as water fowl opener.
